

REMARKS

The present invention is directed to a new class of quinoline and chromene derivatives and to their use as androgen modulators. Minor typographical errors were corrected in claims 1 and 11. Claims 12 and 13 were cancelled. Claim 16 was amended as suggested by the USPTO.

REJECTION UNDER 35 USC 112

Claims 12 and 13 were rejected under the first paragraph of 35 USC 112 for failing to comply with the written description requirement. It is respectfully submitted that this rejection is moot in view of the cancellation of these claims.

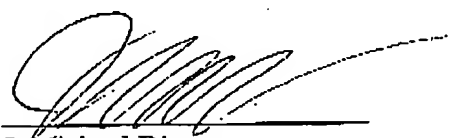

Claim 16 was rejected under the second paragraph of 35 USC 112. Claim 16 has been amended as suggested by the USPTO. The phrase "article of manufacture" has been replaced with "kit" as suggested by the USPTO.

It is respectfully submitted that the case is in condition for allowance. Withdrawal of the rejections of record and reconsideration is requested. If the USPTO feels further minor amendments are required to place the case in condition for allowance, or has any questions about this submission, the undersigned invites a phone call to discuss any such matter.

The USPTO is also authorized to debit or credit deposit account number 23-0455 for any fees that may be associated with this response.
